

CHRISTOPHER V MAIO

Associate Professor Coastal Geography
Director Arctic Coastal Geoscience Lab
PO Box 750225

Fairbanks, AK 99775

cvmaio@alaska.edu

<https://acgl.community.uaf.edu/>

UPDATED: 8/12/2021

PROFESSIONAL STATEMENT

I am a coastal geographer and educator applying the principles of geomorphology and stratigraphy integrated with high resolution geophysical, geospatial, and sedimentary tools to research and educate about earth surface processes specifically related to the coastal response to climate change, natural hazards, and human impacts. I also am focused on increasing coastal science literacy and community-based erosion monitoring programs through student research projects and outreach and training activities in rural coastal and riverine communities.

EDUCATION

2014	<i>PhD. Environmental Science</i> University of Massachusetts Boston Guest Student Woods Hole Oceanographic Institution	Boston, MA
2009	<i>M.S. Environmental Science</i> University of Massachusetts Boston Graduate Certificate of Geographic Information Technology	Boston, MA
2007	<i>B.S. Earth and Geographical Science</i> University of Massachusetts Boston Summa cum Laude	Boston, MA
2002 – 2005	University of Alaska, Anchorage Biological Science Program	Anchorage, AK

PROFESSIONAL EXPERIENCE

CURRENT

2021 - present

Associate Professor
Tenured

University of Alaska Fairbanks
Geophysical Institute

Fairbanks, AK

PREVIOUS

2019 -2021

<i>Associate Professor Tenured</i>	University of Alaska Fairbanks Department of Geosciences	Fairbanks, AK
2014 – 2019 <i>Assistant Professor</i>	University of Alaska Fairbanks Department of Geosciences	Fairbanks, AK
<i>Adjunct Researcher</i>	Alaska Pacific University Fisheries Aquatic Science & Technology Laboratory	Anchorage, AK
2011 – 2014 <i>Guest Student</i>	Woods Hole Oceanographic Institution Department of Geology and Geophysics Sponsored by Dr. Jeff Donnelly	Woods Hole, MA
2007 – 2014 <i>Teacher's Assistant</i>	University of Massachusetts Boston School for the Environment courses and field trips	Boston, MA
2012 – 2013 <i>Research Fellow</i>	University of Massachusetts Boston School for the Environment	Boston, MA
2011 – 2012 <i>Adjunct Faculty</i>	University of Massachusetts Boston Navitas International Education Program EEOS 101: Introduction to the Global Environment EEOS 478: Academic Skills for Multicultural Students	Boston, MA
2009 – 2011 <i>GIS Consultant</i>	Massachusetts Board of Underwater Archeological Resources Geospatial analysis of historical landscapes	Boston, MA
2005 – 2011 <i>Owner/Contractor</i>	Sandy Shores Home Improvement Services Owned and operated small carpentry business	Sandwich, MA
2000 – 2005 <i>Fisheries Technician III</i>	Alaska Department of Fish and Game Supervised the remote collection, laboratory processing and analysis of fisheries related data	Homer, AK

RESEARCH PROJECT EXAMPLES

Coastal Hazard Impact Assessment and Mitigation and Adaptation Strategies, Port Heiden, Alaska.

Ongoing – Collaborative research carried out to identify coastal hazards and provide actionable adaptation and mitigation strategies to the Native Village of Port Heiden. Project partners include the Native Village of Port Heiden, Alaska Sea Grant, Alaska Native Tribal Health Consortium, Alaska Division of Geological and Geophysical Surveys, Bristol Bay Native Association, NOAA-NOS-NGS, and the Environmental Protection Agency.

Community Based Monitoring in Alaska Native Villages

Ongoing – Collaborative research to develop baseline topographic datasets and community based shoreline erosion monitoring programs in 20 western Alaskan coastal and riverine communities. Partners include Alaska Division of Geological and Geophysical Surveys, Alaska Sea Grant, Bristol Bay Native Association, Alaska Institute of Justice, the Environmental Protection Agency, and Borough of Indian Affairs.

Thermokarst Lake Dynamics and Climate Change in Goldstream Valley, Fairbanks, Alaska.

Ongoing collaborative research project between UAF, the Alfred Wegener Institute, and others to determine the paleoenvironmental evolution of area thermokarst lakes and determine their potential role in past, present, and future climate change. The focus of my contribution includes the collection and analysis of sediment cores collected in 12 area lakes. The ACGL has also served to provide the facilities and tools to achieve multiple core sampling objectives.

Sea-level and storm impacts on the landscape and cultural resources associated with an ancient Inupiaq house site in northwestern Alaska.

Ongoing – NSF-Arctic Social Science sponsored research focused on deciphering paleoenvironmental conditions impacting early humans living in the region approximately 1000 years ago. Research includes the development of sediment derived sea-level and storm records and the mapping of paleo shorelines in the vicinity of an ancient Inupiaq village site. Collaboration between UAF, the University of Paris, the National Park Service, and others.

Impact of Contemporary, Historical, and Paleo Storm Surges on Arctic Delta Systems, Beaufort Sea Coastline, Alaska

Ongoing – Collaborative interdisciplinary research project to assess storm surge impacts at three deltas along Alaska’s Beaufort Sea coastline via remote sensing, real-time measurements, and paleo proxy sediment core records.

Holocene storm activity in the Caribbean Sea derived from sediment and microfossil proxies.

Ongoing – Dalio Foundation sponsored research in collaboration with WHOI, Texas A&M Galveston, and others. The research seeks to develop paleo-storm records based on sediment cores collected in Caribbean blue holes. The field work took place aboard the M/V Alucia during the summer of 2016 where over 300 m of sediment cores were collected. These records will help to answer whether Hurricane Irma is anomalous in the geologic record and aid in accurate risk assessments in the future.

Coastal geologic evolution and archeology of James Lagoon, Kenai Fjords National Park

Ongoing – Collaborative research between UAF, the Kenai Fjords National Park, the Smithsonian Institution Arctic Studies Center, and the Woods Hole Oceanographic Institution (WHOI) aimed at determining the coastal geographic evolution of the landscape surrounding cultural resources vulnerable to coastal erosion.

Coastal Resiliency Assessment, Goodnews Bay, Alaska

2017 – Alaska Sea Grant Funded research focused on assessing the coastal resiliency of Goodnews Bay. The project includes the development of baseline high resolution

topographical data, the reconstruction of a late Holocene sea-level history, and a determination of the paleo-evolution of a coastal barrier beach. The project includes a community outreach program.

Development of quantitative geospatial model to determine non-fishing impacts to Essential Fish Habitat (EFH) in Alaska. 2015 – A collaborative research project between Alaska Pacific University’s Fisheries Aquatic Science, and Technology (FAST) laboratory, NOAA National Marine Fisheries Service Habitat Conservation Division and UAF. The research is aimed at developing a framework for a cumulative impact model to quantify and visualize the risks associated with the interactions between non-fishing impacts and EFH.

Strategic Environmental Research and Development Program (SERDP): Climate change and impacts of sea-level rise on Ronald Reagan Ballistic Missile Defense Test Site, U.S. Army, Kwajalein Atoll (USAKA). 2014 – Assisted in research conducted by WHOI-CSG under PI Jeff Donnelly to acquire high resolution topographic, bathymetric, and marine/terrestrial geophysical datasets to assist in the development of climate models able to assess coastal change under varying climate conditions.

Geological investigations of the Waquoit Bay estuarine system, Mashpee, Massachusetts 2016 – Collaboration with the UMass Boston School for the Environment, the Waquoit Bay National Estuarine Research Reserve (WBNERR) and the Woods Hole Oceanographic Institution’s Coastal Systems Group (WHOI-CSG) to utilize high resolution geophysical, geospatial, and sedimentary methods to identify and map the framework geology and evolution of the area during the late Pleistocene to Holocene time periods. The research elucidates past coastal landscape response to climate fluctuations allowing for a more comprehensive understanding and context to current and future change.

Late Pleistocene abrupt climate change in the Beaufort Sea deciphered through deep-ocean sediment cores and microfossil analysis. Summer, 2013 – Participation under the direction of WHOI’s senior scientist Lloyd Keigwin in collaboration with Scripps University on board the U.S Coast Guard Cutter Healy NSF sponsored sediment coring mission 1302. The largest archive of Beaufort Sea sediment cores was collected on the cruise between Point Barrow and Banks Island. Ongoing analysis of sediment cores and geophysical data will greatly enhance understanding of the triggers of Late Pleistocene abrupt climate change.

GRADUATE STUDENTS

MASTERS OF SCIENCE

Harper Baldwin, MS Thesis Title: Historical storm assessments and narratives.	2021	Ongoing
Jessica Christian, MS Thesis Title: Community based erosion monitoring in western Alaska	2020	Ongoing

Roberta Glenn, MS	2019	Ongoing
Tentative Thesis Title: <i>Alaska's Eroding Infrastructure: Systematic Approach to Identifying and Prioritizing Coastal Infrastructure at Risk to Erosion.</i>		
Matthew Whitley, MS	2015-2017	Graduated
Thesis Title: <i>Assessment of LiDAR and Spectral Techniques for High-Resolution Mapping of Permafrost on the Yukon-Kuskokwim Delta, Alaska.</i>		
Richard Buzard, MS	2015-2017	Graduated
Thesis Title: <i>Spatiotemporal Patterns of Bluff Erosion at Goodnews Bay, Alaska.</i>		

DOCTORAL

Lindsey Smith, MS-PhD	2019	Ongoing
Thesis Title: Coastal sedimentation rates in the Arctic determined through radio isotope dating methods		
Reyce Bogardus, MS-PhD	2018	Ongoing
Thesis Title: <i>Modeling coastal sediment transport and flood elevations during extreme storm events using 3D numerical models.</i>		
Richard Buzard	2017	Temporary Leave
Current Geologist II Alaska DGGGS		
Tentative Dissertation Title: <i>Arctic drivers of coastal change as measured through community-based monitoring and remotely sensed data.</i>		

GRADUATE COMMITTEE MEMBER

Thomas Meyer, MS	2020-present	Ongoing
Anika Pinzner, PhD	2019-present	Ongoing
Zach Little, MS	2018-present	Ongoing
Michael Letzring, PhD	2018-present	Ongoing
Jon Allen, PhD	2018-present	Ongoing
Elizabeth Richards, MS	2019-present	Graduated
Zena Roberts, MS	2018-2021	Graduated
Mark McLernan, Masters of Science	2017-2019	Graduated

RESEARCH FUNDING

1. National Science Foundation – Arctic Natural Science, August 2021 (Co-I). Submarine Basins, Steppe, and Sea Ice: Paleoclimate and Paleoecology of the Late Pleistocene and Holocene Bering Sea Shelf: - **\$1,721,614**
2. National Science Foundation – Arctic Natural Science, July 2020 (PI). Collaborative Research: Developing high-resolution records of storminess from the southern Bering Sea Funding Request. 2021: PI - **\$771,807**
3. National Science Foundation Major Research Infrastructure, January 2020 (Co-I). *MRI: Acquisition of a next generation noble gas multi-collector mass spectrometer system to support fundamental and applied geochronology research and education.* 2020: - **\$714,893**
4. Alaska Sea Grant, Increasing the Capacity of Alaskan Coastal Communities to Adapt and Respond to Storm Driven Coastal Hazards, 2020: PI - **\$177,000 Research, \$100,000 - 2-year student fellowship**
5. National Science Foundation - Non-Academic Research Internships for Graduate Students (INTERN) Supplemental Funding Opportunity, Supplement to CAREER: Building research and decision-making capacity in the Arctic through deciphering storm-induced sediment dynamics and synergistic Alaska Native coastal science education, 2020, **\$39,899**
6. National Science Foundation Polar Programs and Alaska EPSCOR, *CAREER: Building research and decision-making capacity in the Arctic through deciphering storm-induced sediment dynamics and synergistic Alaska Native coastal science education*, 2019: PI - **\$801,470**
7. National Science Foundation Navigating the New Arctic, *NNA Track 1: Pursuing Opportunities for Long-term Arctic Resilience for Infrastructure and Society (POLARIS)* 2019: UAF PI - **\$1,002,990**
8. National Science Foundation AccelNet, *Collaborative Research: AccelNet: Permafrost Coastal Systems Network (PerCS-Net) - a circumpolar alliance for arctic coastal community information exchange.* Co-I - **\$38,460**
9. Tribal Governments (Native Villages of Port Heiden, Pilot Point, Togiak, Levelock, Chignik Bay, Nelson Lagoon, and Ekok), *Community Based Monitoring – Data products for decision making.* 2019: PI - **\$45,000**
10. Bureau of Indian Affairs Tribal Resilience Program, Alaska’s eroding infrastructure: systematic approach to identifying and prioritizing coastal infrastructure at risk to erosion. 2019: Co-I - **\$146,786**
11. Alaska Department of Natural Resources Division of Geological and Geophysical Survey Coastal Hazard Program, Community Based Monitoring, 2018: PI - **\$26,291**
12. National Science Foundation Polar Programs - Arctic Social Science, 2016-2018: Senior Personal - **\$90,000**
13. University of Alaska Fairbanks, 2015 and 2017 URSA Technology Award: **\$17,500**
14. Alaska Sea Grant, *Stakes for Stakeholders.* 2016-2018: PI - **\$147,191**

15. Alaska Sea Grant, *Coastal Resiliency Assessment of Goodnews Bay*. 2015-2017: **\$195,530**
16. National Park Service 2015-2017: **\$19,856**
17. University of Alaska Fairbanks Office of the Provost Travel Grant, 2015, 2016, 2017: **\$2400**
18. NOAA-NMFS, 2014-2015: **\$70,000**
19. University of Alaska Fairbanks, 2014 URSA Mentor Award: **\$10,000**
20. Woods Hole Oceanographic Institution Department of Geology and Geophysics Guest Student Program, 2012 through 2014: **\$30,000**
21. University of Massachusetts, School for the Environment Research Fellowship, 2012 and 2013: **\$30,000**
22. National Park Service American Battlefield Protection Program & Massachusetts Board of Underwater Archaeological Resources, The Battle of Chelsea Creek, 2009-2011: **\$19,525**
23. University of Massachusetts, Graduate School Assembly Bollinger Research Grant, **\$1,930**, June 2013.
24. University of Massachusetts-Boston, Graduate Studies Doctoral Dissertation Research Grant, 2011 and 2012: **\$4500**
25. Geological Society of America Graduate Student Research Grant, 2012: **\$1960**

PENDING PROPOSALS

1. National Science Foundation – *Large-scale CoPe: Community driven resilience through a transformative framework of partnerships, actionable scientific research, and knowledge co-production and exchange*. Funding Request \$18,794,585.

DECLINED PROPOSALS

1. National Science Foundation Coastlines and People, June, 2019 (PI). *CoPe RCN – Designing the Foundation for an Arctic-focused Coastlines and People Hub*, \$500,000
2. National Science Foundation, 2019. *NNA Track 1 – Collaborative Research- Integrating Indigenous knowledge and interdisciplinary science to create a decision-making framework for risk management and relocation*. Funding Request: \$521,000.
3. National Science Foundation – Arctic Natural Science, June 2018. *Collaborative Research: Developing high-resolution records of storminess from the southern Bering Sea*. In collaboration with WHOI and UNCW. Funding Request \$303,000.
4. National Science Foundation – Arctic Natural Science – CAREER, submitted July 2017. *Late Holocene frequency of Bering Sea storm activity and coastal science education programs to promote informed decision making and pathways to higher education*. Funding Request \$734,219.

5. National Science Foundation – Marine Geology and Geophysics, submitted January 2017. *Collaborative Research: Developing high-resolution records of storminess from the southern Bering Sea*. In collaboration with WHOI and UNCW. Funding Request \$480,787
6. National Science Foundation – Arctic Natural Science – CAREER, submitted July 2016. *Late Holocene frequency of Bering Sea storm activity and coastal science education programs to promote informed decision making and pathways to higher education*. Funding Request \$634,601.
7. National Fish and Wildlife Foundation – Alaska Fish and Wildlife Fund, submitted December 2016. *Development of stressor assessment of essential fish habitat in Cook Inlet*. In Collaboration with NOAA Fisheries. Funding Request \$125,000.
8. North Pacific Research Board, submitted December 2016. *BeringWatch: Enhancing the Capacity of Tribal Environmental Programs in Western Alaska*. In collaboration with the Alaska Division of Geological and Geophysical Surveys and the Aleut Community of St. Paul Island. Funding Request \$47,706.
9. UAF-URSA, submitted March 2016. *Getting Muddy with Coastal Education and Research: Dynamic Alaskan Coastlines Spring 2016 Field Trip*. Funding Request \$5,000.
10. UAF-URSA Mentor Award, submitted February 2016. *Building on Success: Mapping Our Path into the Future with Real-Time Kinematic GPS*. Funding Request \$5,000.
11. North Pacific Research Board, January 2016. *Flooding and Erosion on the Yukon-Kuskokwim Delta: Community Coastal Geohazard Assessment of Tununak, Alaska*. Funding Request \$16,945
12. National Park Service – Alaska Region Natural Resource Project, submitted December 2016. *Unlocking sediment archives containing 10,000 years of environmental change, James Lagoon, Kenai Fjords National Park*. Funding Request \$81,879.
13. Coastal Marine Institute, submitted May 2015. *Development of sedimentary, geophysical, and geospatial datasets to decipher extreme storm event chronology, frequency, and environmental impact, Norton Sound Alaska*. Funding Request \$799,550.
14. National Science Foundation, submitted December 2014. *Pre-Proposal: A Science & Technology Center (STC) for Sustainable Ecosystems in Ice-bound Coastal Environments (SE-ICE)*. Funding Request \$250,000.

EDUCATIONAL ACTIVITIES

CURRENT TEACHING

Undergraduate and Graduate – UAF Department of Geosciences

- GEOG 111x Online - *Elements of Physical Geography w/Lab*
- GEOG/GEOS 339, *Change Detection in Arctic Systems*
- GEOG/GEOS 483, *Research Design, Writing, and Presentation Methods*
- GEOS/GEOG 460/660, *The Dynamic Alaskan Coastline*
- GEOS 488/697, *Undergrad/Grad Research*

COURSES TAUGHT

Undergraduate – UMass Boston School for the Environment

- EEOS 101, *Introduction to the Global Environment*, Navitas International Education Program, 2011-2012
- EEOS 478, *Academic Skills for Multicultural Students*, 2011-2012

FIELD TRIPS CONDUCTED

- *Glacial Geology of the Alaska Range*. UAF GEOG 339. 2017, 2019
- *Dynamic Alaskan Coastlines, Homer, Alaska*. UAF GEOS 460/660. 2016 and 2018.
- *Fox Permafrost Tunnel, Alaska*. UAF GEOG 111. 2014-2015
- *Museum of the North, Alaska*. UAF GEOG 111. 2014-2015
- *Poker Flat Research Range, Alaska*. UAF GEOG 339. 2015
- *Field Trips in Environmental Science*. UMass Boston School for the Environment 3 day 1 credit field trips. 2010-2014
- *Geographical and historical evolution of Boston's coastal environment*. National Science Foundation supported Coastal Research in Environmental Science and Technology - Experience for Undergraduates (CREST-REU) program at UMass Boston, July 2012, July 2013
- *The Story of the Past Yields Clues to the Future*, Woods Hole Oceanographic Institution's Ocean Science Journalism Fellowship program, August 2012

SYNERGISTIC ACTIVITIES

CURRENT & RECENT COLLABORATORS

- Alix, Claire, Professor, Arctic Archeology, University of Paris
